Hi Nancy,

Here is the ppt for tomorrow's CWR session.

Thanks,
John

Hi Nancy,

Attached is the Oregon Temperature BiOp RPA for the cold water refugia plans. Feel free to send this to the Caucus members. We will be preparing a ppt, but that won't be done until Monday afternoon (hope that is ok).

Hi Nancy, yes that time works. I will be there for sure and we will confirm if anyone else other than Marylou and I will be there from EPA. We will prepare a ppt to help the discussion and will also have a handout of the RPA. Also, it would be good to send out the RPA prior to the meeting and request the members read it over prior to the meeting. I'll send that to you.

Thank you Nancy,

John

Christine, John, and Rochelle:

We're looking forward to hearing from you at our upcoming Caucus meeting. I currently have you in a one hour time slot beginning at 1:30 pm. Need to confirm that the time is workable. Also, have you firmed up a presentation title? And/or have you determined any of the materials you'll be using -- PPT, handouts, etc?

Just let me know how I can help and if you'd like to generate any advance homework for Caucus members.

Also, I'll assume you'll be in Portland for the meeting... just let me know if not. As you can see, we have a call-in number and a GoToMeeting scheduled, which you can take advantage of if necessary.

Nancy

Draft Agenda attached.
